

# W1D2: Quiz

## CS544 Enterprise Architecture

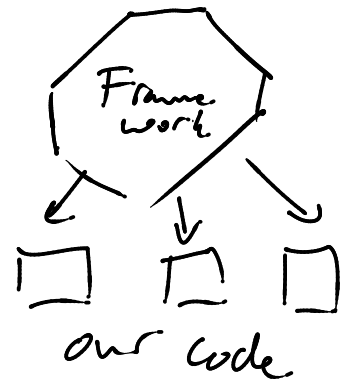

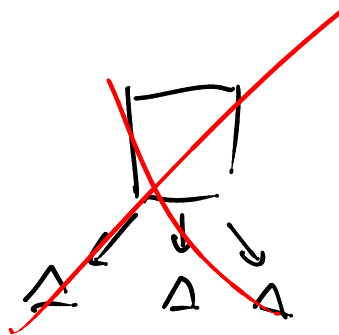

1. What are the advantages of Domain Driven Design:

Separation of concerns (business code is only business code)

Good for maintainability, can change parts without affecting the others.  
Easier to understand, model the real world.

2. What is the Hollywood Principle?

Don't call us, we'll call you!

3. Explain what Maven is:

Project Build Tool, that does dependency management

4. What is component scanning?

give it a base package and it  
looks for classes that are @Component
